

UHS-EM1 is an indoor/outdoor freeze resistant emergency eyewash shower for first aid treatment in high hazardous controlled areas. Designed to withstand temperatures of -35 celcius. All internal fixtures and fittings made from 304 stainless steel.

**Technical data**

1. Shower head 10" ABS in safety yellow
2. ABS eyewash bowl and fittings in safety yellow.
3. Shower valve/ball valve stainless steel 304 corrosion resistant.
4. Inlet water connection 1" BSP Outlet water connection 1 1/4" BSP
5. Flow rate: Eyewash 11.4Lpm Shower: 75.5Lpm
6. Hydraulic Pressure: 0.2MPa-0.8MPa
7. Voltage 3 phase: 220v-250v 50Hz
8. Kilowatt Power: 200W
9. Additional Options: Panic alarm and outside security light.

**Product Details**

**1**  
 Shower bowl has a 75 Lpm flow rate.

**2**  
 Shower valve engineered for specific application to ensure reliable operation.

**3**  
 All internal fixtures and fittings made from 304 stainless steel

**4**  
 Eye Wash bowl fitted with dual aerated spray heads with automatic flow control and flip top dust covers.

**5**  
 Water outlet connection 1 1/4" Bsp

Additional options available. panic alarm and outside security light.
